## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 31 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Feisel (3,537,079). Feisel, in Figure 2, shows a memory device that includes a ferroelectric element (slab 52), which has at least three electrodes (the Fig. 2 device uses eight electrodes), stores information of at least three values (nine values stored in the (3 x 3) matrix), and reads out data via transistors (see the discussion at col. 4, l. 24).

### ***Allowable Subject Matter***
